GOD'S HEALING & GRACE

A long journey has just reached the end and we are so excited! The doctor looked over the test results from the bone marrow biopsy and the CT scan and gave the "All Clear" announcement—no more cancer! Praise God!!!!

It's been a long trip since February when we started into the chemo process. Rochelle has been up and down with the effects of the chemicals, but it has all worked out. We are so thankful for God's answers to prayer: she came through feeling about as good as people can when receiving this treatment, she kept her hair the whole time when most people lose it, and she still has good strength for the rest of life.

We were amazed by the help of so many friends! Of course, everyone was praying for

her and our family throughout. Local friends were able to provide meals, and many went with Rochelle on her chemo days to keep her company through the long IV drips. So we were well cared for in all of the process. It all made us feel so thankful and joyful in the midst of it all.

While the doctors say that it always comes back, for now it is gone and we're praying it will just stay away! Thanks so much for standing with us through the cancer journey! You can read more at www.caringbridge.org/visit/rochelleclark

IMPACT OF SENDING

Sending Team gathering for devotion and planning time.

As you help us through your prayers and partnership, our team is working to place more staff overseas. Recently we worked with a young couple who spent a year with Cru in an east Asia country. Starting with campus ministry, they moved on to working with business people. After that experience, they decided God was indeed leading them to return to the same country and serve in developing young business people. The couple attended New Staff Training in preparation for working as Cru missionaries.

Mid-career New Staff Training Sept 2012

As I interacted with them, I shared ideas on resources including Family Life and Arts ministry, which will help connect them to business people. It regularly happens at New Staff Training that our new staff discover Cru is bigger and has more resources than they imagined to help them in reaching the world for Christ.

This couple joined Cru because someone they knew understood enough of the opportunities to point them in the right direction. I hope you'll check out Cru's opportunities yourself!

PARTNERS AND PRAYERS

ADDING ADDITIONAL PARTNERS

At this time I need to turn my attention again to seeing our full support raised. Some folks on our team have had to make changes in their giving, so we will need to add more partners to be able to minister effectively, giving our full attention to the work God has called us to do. This involves raising an additional \$1600 monthly to get us to full support.

During October and November we hope to talk with you and to meet other people who long to see the Gospel of Christ taken to all people around the world. Would you take a moment now to think of people you know who share our heart to reach the world for Jesus Christ? Please pray that God would lead us to the partners He has for our support team. Thanks!

PRAYER NOTES

Thanks for praying for the new STINT staff members on my Sending team. They all have settled into their positions and begun connecting with the STINTers they serve around the world.

Melissa is starting work at a local pre-K and daycare center, which is what she loves. She is helping with local MK2MK events and involved with Cru at Univ. Central Florida and church. Pray for her stamina and freedom from back and neck muscle problems that she has at times.

Thanks so much for your effective prayers for us! We need them and are so thankful for you, dear friends!

*With love and thanks,
Steve, Rochelle and family*
